

Challenges

Autobell needed to sunset an outdated payroll and timekeeping software platform and began an HCM assessment and RFP process to identify the best solution for their needs. They set an accelerated timeline for completion of a new system to improve efficiencies for their HR team and employees.

Solution

We supported the assessment, RFP and implementation of Autobell's selected platform, Kronos Workforce Ready Payroll & HR, including:

Provided project management and technical expertise throughout the entire project

Ensured accurate setup in new system to meet AutoBell's specific needs

Managed vendor outcomes and client deadlines

Integrated existing timekeeping POS with Kronos Workforce Ready

Results

- Successful and timely implementation of all products
- Improved efficiency for all employees, managers and administrators

EMPLOYEES: 3,500

REGION: North Carolina

PRODUCT/MODULES
IMPLEMENTED:

Kronos Workforce Ready
Payroll & HR

"ClearCourse played an integral role in our recent HCM Assessment, RFP and Implementation. We set the bar very high by establishing a conversion date that many vendors said they could not meet. Not only did we meet our deadline, but our company's transition to a new HCM platform was virtually painless thanks to the leadership, support and assistance provided by the ClearCourse team. The project management expertise of our consultant was critical in keeping us on task and moving forward to complete our implementation. I highly recommend ClearCourse to any organization needing to optimize HCM people, process and technology."
